

Chop- and miter saw KGS400M/KGS400A

Precision chop saw with 400Ø mm saw blade

Different models and options for different applications and conditions. Manual or automatic saw feed, horizontal and vertical working piece clamping, etc.

Chop saw KGS400M

Chop saw with manual feed.

DESCRIPTION:

- miter saw with turntable: traversable -45° up to +45°, latching points at -45°, 90° and +45°
- ascertainable intermediate angles, via scala
- fixed saw blade at 90°
- saw blade protection
- manual saw feed
- 1 x manual working piece clamping from the front side, extension on the left and right side of the saw blade possible

Options:

- steel machine stand
- pneumatic clamping cylinder, vertical or horizontal
- cooling spray device
- roller conveyors, length stop

Delivery:

Chop saw with turntable, 1 manual clamp, 1 saw blade, 1 stop

TECHNICAL DATA:

Voltage	400V, 50/60Hz
Motor	1,5kW
Revolutions	3000 U/min
Saw blade (mm)	400 mm
Max. cutting area	45°: 143x80 mm 90°: 200x80 mm

Chop saw KGS400A

Chop saw with automatic feed.

DESCRIPTION:

- miter saw with turntable: traversable with latching points at 15° - 22,5° - 30° - 45° left and right, as well as 90°
- ascertainable intermediate angles, via scala
- inclinable saw head 45°-90° left
- massive machine stand
- saw blade protection
- hydropneumatic saw feed, adjustable
- horizontal pneumatic working piece clamping

Options:

- vertical pneumatic clamping cylinder
- cooling spray device
- roller conveyors, length stop

Delivery:

Traversable chop saw with turntable, massive machine stand, horizontal pneumatic clamp, 1 saw blade, 1 stop, 1 blow of tool

TECHNICAL DATA:

Spannung	400V, 50/60Hz
Motor	1,5kW
Revolutions	3000 U/min
Saw blade (mm)	400 mm
Max. cutting area	45°: 143x80 mm 90°: 200x80 mm
